

THE BEST BUNKHOUSE RV FEATURES

We've talked to a lot of camping enthusiasts and helped many happy customers since 1972. So, we have a pretty good idea of the best features you can't live without in your new bunkhouse RV.

1 Bunkbeds!

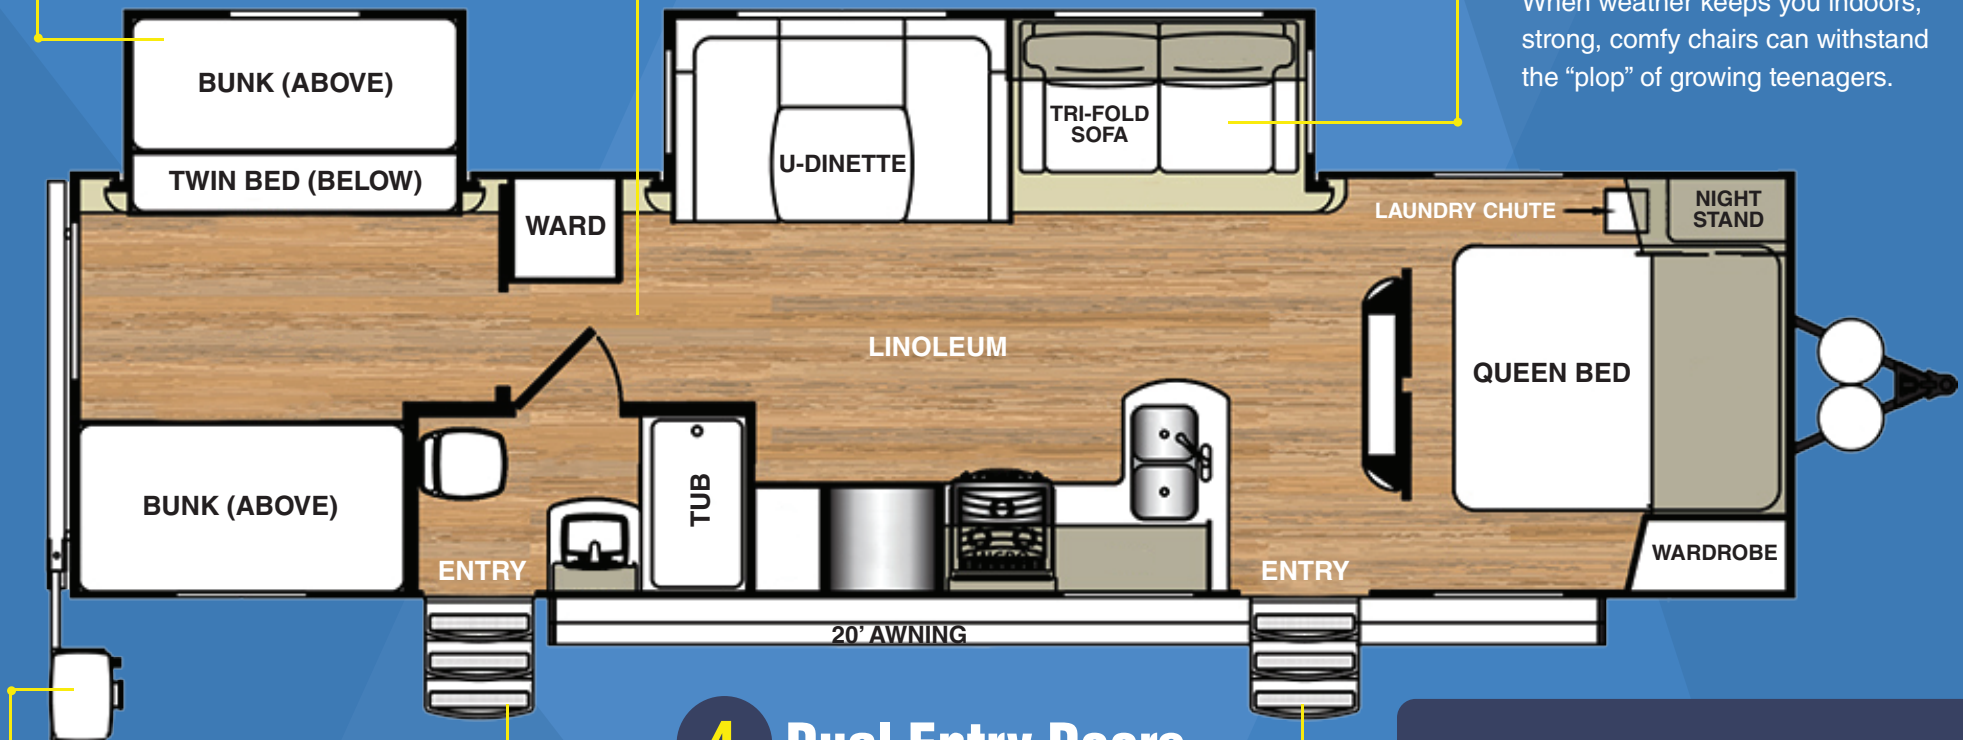

The more the merrier, right? Pack in gear by day and tuck in campers by night with extra sleeping space.

2 Extra Floor Space

A bunkbed configuration means extra floor space for the little ones to play some games on a rainy day.

5 Residential Furniture

When weather keeps you indoors, strong, comfy chairs can withstand the "plop" of growing teenagers.

3 Outdoor Kitchen

This optional feature is extremely popular and adds to your experience when entertaining friends.

4 Dual Entry Doors

Limit the mess! Point kids and guests to a second door near the bathroom/bunkhouse for RV entry.
